No. NEPRA/R/DG(Trf)/TRF-100/2935-57

February 11, 2026

Subject: **DECISION OF THE AUTHORITY IN THE MATTER OF FEDERAL GOVERNMENT MOTION & POLICY GUIDELINES FOR RATIONALIZATION OF TARIFF OF XWDISCOS AND K-ELETRIC, UNDER SECTION 7 AND 31 OF NEPRA ACT READ WITH RULE 17 OF THE NEPRA TARIFF (STANDARDS AND PROCEDURES) RULES, 1998**

Dear Sir,

Please find enclosed herewith the subject Decision of the Authority (total 51 Pages). The instant Decision including Annex-A, A-1, B, B-1 and C and revised Annex-II & Annex-III of all XWDISCOs is intimated to the Federal Government for notification in terms of Section 31(7) of the Act.

2. The Decision is being intimated to the Federal Government for the purpose of notification in the official Gazette pursuant to Section 31(7) of the Regulation of Generation, Transmission and Distribution of Electric Power Act, 1997 within 30 Calendar days from the intimation of this Decision. In the event the Federal Government fails to notify the subject tariff Decision within the time period specified in Section 31(7), the Authority shall notify the same in the official Gazette pursuant to Section 31(7) of NEPRA Act.

Enclosure: **As above**

(Syed Zawar Haider)
Director

Secretary,
Ministry of Energy (Power Division),
'A' Block, Pak Secretariat,
Islamabad

**DECISION OF THE AUTHORITY IN THE MATTER OF FEDERAL GOVERNMENT
MOTION & POLICY GUIDELINES FOR RATIONALIZATION OF TARIFF OF XWDISCOs
AND K-ELECTRIC, UNDER SECTION 7 AND 31 OF NEPRA ACT READ WITH RULE 17
OF THE NEPRA TARIFF (STANDARDS AND PROCEDURES) RULES, 1998.**

1. NEPRA determined annual tariff adjustments / indexation and Multi Year Tariffs of XWDISCOs, for the CY 2026 vide decisions dated 07.01.2026. In addition, the Authority also determined Power Purchase Price forecast for the CY 2026 vide decision dated 07.01.2026.
2. The said decisions were intimated to the Federal Government, for filing of the uniform tariff application, in terms of section 31 of the Regulation of Generation, Transmission and Distribution of Electric Power Act, 1997 (hereinafter, **"the Act"**).
3. In response, the Ministry of Energy (MoE), Power Division (hereinafter, **"MoE (PD)"** or **"the Petitioner"**), vide letter dated 08.01.2026, filed a motion with respect to the recommendation of consumer end tariff for XWDISCOs and K-Electric for the CY 2026, under section 7 & 31 of the Act, read with Rule 17 of the NEPRA Tariff (Standards and Procedure) Rules, 1998 (hereinafter, **"the Rules"**). The said motion was decided by the Authority vide decision dated 12.01.2026, which was subsequently notified by the Federal Government vide SROs 41 to 52 (I)/2026 dated 13.01.2026.
4. The Federal Government, while referring to the aforementioned tariff determinations for XWDISCOs dated 07.01.2026, and subsequent decision dated 12.01.2026, has filed the instant Motion (hereinafter **"the Motion"**) with respect to Consumer End Tariff of XWDISCOs under section 7 and 31 of the Act read with Rule 17 of the Rules, so as to reconsider and issue the revised uniform schedule of tariff of XWDISCOs, by incorporating targeted subsidy, inter distribution companies tariff rationalization and the tariff rationalization pursuant to the following policy guidelines:
 - i. Revision of the GoP applicable uniform tariff as proposed in the Motion and accordingly issuance of revised schedule of tariff (hereinafter, **"SOT"**) while remaining within determined requirement of XWDISCOs and already budgeted Tariff differential subsidy of Rs.249 billion.
 - ii. Incorporation of fixed charges as proposed in the Motion in NEPRA determined SOT and issuance of revised schedule of tariff after adjusting variable rates in line with the already determined revenue requirement of DISCOs.
5. Instant Motion has also been filed by the Federal Government with respect to Consumer End Tariff of K-Electric, under section 7 and 31 of the Act read with Rule 17 of the Rules, so as to reconsider and issue for K-Electric, the modified uniform tariff, in order to

Muthu. J

maintain uniform tariff across the country, so as to recover the revenue requirements of K-Electric determined by the Authority, keeping in view the proposed targeted subsidy and/or cross subsidies to be notified in the official gazette by way of modification in SRO No. 575(I)/2019 as modified from time to time.

6. The MoE (PD) in the Motion, while referring to National Electricity Policy 2021 (the Policy) stated that the Policy approved by the Council of Common Interest provides under Clause 5.6.1 that financial sustainability of the sector is premised on the recovery of full cost of service, to extent feasible, through an efficient tariff structure, which ensures sufficient liquidity in the sector and vide Clause 5.6.4 it states that 'in due course, financial self-sustainability will eliminate the need for Federal Government subsidies (except for any subsidies for lifeline, industry or agriculture consumers, as per prevailing Federal Government's considerations).
7. The Motion further states that in view of various parameters, including (a) the socio-economic objectives, (b) budgetary targets in field; and (c) recommendations of the Regulator with respect to consumer-end tariff for each State-Owned Distribution company, the Federal Government may continue to propose uniform tariff across the consumers and regions. In pursuance thereto, the Regulator shall in consumer interest, determine a uniform tariff (inclusive of quarterly adjustments) for all the State-Owned Distribution companies.
8. The MoE (PD) further submitted that in view of the existing structural misalignment between the determined revenue requirement of the power sector where a substantial portion comprises of fixed costs and the predominantly volumetric recovery mechanism under the current tariff, coupled with the significant expansion of off-grid solar, it has become necessary to rationalize the tariff structure. The present volumetric tariff framework has placed a disproportionate recovery burden on other consumers particularly, leading to increased cross subsidization and migration to alternative energy solutions. Accordingly, while remaining within the determined revenue requirement and approved subsidy limits, a recalibration of fixed and variable charges is proposed to ensure equitable cost recovery and long-term financial sustainability of the grid. Accordingly, the fixed charges for all domestic consumers, except lifeline consumers is being introduced/revised.
9. It has also been submitted that in order to better reflect the underlying cost structure and fixed cost recovery of the power sector consolidated revenue requirement approved and determined by the Authority for XWDISCOs (owned and controlled by the Federal Government), the uniform tariff has been approved by the Cabinet in Case No.89/Rule-19/2026/111 on 04.02.2026, and the same is submitted to the Authority for consideration in terms of the provisions of the Act, without changing the targeted tariff differential subsidy of Rs.249 billion along with the policy guidelines for revision of rates and application of

man 9

fixed charges, to be incorporated in NEPRA determined schedule of tariff after adjusting variable rates in line with already determined revenue requirement of DISCOs. Once considered and approved, the same will be notified through modification in SROs 41-52 dated 13.01.2026, read in conformity with earlier issued applicable notifications. Further, in accordance with the Policy, the Federal Government may maintain a uniform consumer-end tariff for K-Electric and State-Owned Distribution companies (even after privatization) through incorporation of direct/indirect subsidies. Accordingly, KE applicable uniform tariff is required to be modified, which will also be consistent with the proposed uniform national tariff of XWDISCOs.

10. The MoE (PD) has proposed the following category wise rates including fixed charges for domestic and industrial consumers, in the Motion;

GoP Applicable Uniform			
Description	Fixed Charges (Rs/Con/M)	Fixed Charges (Rs/kW/M)	Variable Charges (Rs./kWh)
A-1 General Supply Tariff - Residential			
Upto 50 Units (Lifeline)	-	-	3.95
50-100 Units (Lifeline)	-	-	7.74
1-100 units (Protected)	-	200	10.54
101-200 units (Protected)	-	300	13.01
1-100 units	-	275	22.44
101-200 units	-	300	28.91
201-300 units	-	350	33.10
301-400 units	-	400	36.46
401-500 units	-	500	38.95
501-600 units	-	675	40.22
601-700 units	-	675	41.85
Above 700 units	-	675	47.20
Time of Use	-	-	-
Peak	-	-	46.85
Off-Peak	-	675	34.53
E-1 (i) Temporary Residential	-	675	52.89
B - Industrial Supply Tariff			
B-1 less than 5kW / 25 kW (at 400/230 volts)	1,000	-	26.23
Peak	1,000	-	35.74
Off-Peak	-	-	25.48
B-2 5-500 kW / 25-500 kW (at 400 volts)	-	1,250	26.16
Peak	-	-	35.68
Off-Peak	-	1,250	22.83
B-3 for all loads upto 500kW (at 11, 33kV)	-	1,250	27.00
Peak	-	-	35.68
Off-Peak	-	1,250	23.67
B-4 for all loads (at 66kV, 132kV and above)	-	1,250	26.43
Peak	-	-	35.68
Off-Peak	-	1,250	23.38
B-5 for all loads (at 220kV & above)	-	-	35.68
Peak	-	-	23.13
Off-Peak	-	1,250	23.13
E-2 (i) Temporary Industrial	5,000	-	42.25

Note 1: The fixed charges for Non-ToU domestic consumers shall be applicable based on the sanctioned load.

Note 2: The fixed charges for ToU domestic consumers shall be applicable based on 50% of the sanctioned load or MDI, whichever is higher.

11. The Authority, in order to provide a fair opportunity to the Federal Government to present its case and other relevant stakeholders, decided to conduct a hearing in the matter which

Mam, I

was scheduled on 10.02.2026 at NEPRA Tower Islamabad along with ZOOM. Notice of hearing was published in newspapers on 07.02.2026 and also uploaded on NEPRA website along-with copy of Motion filed by the MoE (PD).

12. The hearing was held as per the schedule on 10.02.2026, wherein the Federal Government was represented by Additional Secretary, MoE (PD), along-with team from PPMC and CPPA-G. Representatives from XWDISCOs, K-Electric, media, Industry, and general public were also present during the hearing.
13. The MoE (PD) during the hearing reiterated its submissions made in the Motion and also presented the increasing trend of protected consumers over the years as under:

	2022				2026			
	Total Consumers		DISCOs Units		Total Consumers		DISCOs Units	
	Nos	%	MkWh	%	Nos	%	MkWh	%
Up to 50 Units - Life Line	1,311,583	5%	357	1%	849,869	2%	413	1%
51-100 units - Life Line	286,624	1%	1,298	2%	533,271	2%	393	1%
01-200 Units Protected	7,856,737	28%	6,872	13%	20,170,487	59%	18,905	37%
	9,454,944	34%	8,527	16%	21,553,627	63%	19,711	38%
01-200 Units Non-Protected	9,071,506	32%	12,078	23%	2,394,808	7%	9,482	18%
201-300 Units	5,384,526	19%	11,901	23%	5,632,066	16%	9,083	18%
301-400 Units	2,050,714	7%	10,198	19%	2,013,502	6%	4,203	8%
401-500 Units	830,273	3%	1,867	4%	846,009	2%	2,115	4%
501-600 Units	366,603	1%	1,057	2%	403,910	1%	1,130	2%
601-700 Units	178,258	1%	653	1%	213,277	1%	670	1%
Above 700 Units	263,821	1%	3,248	6%	335,287	1%	1,568	3%
Time of Use (TOU) - Peak	593,678	2%	516	1%	873,087	3%	769	1%
Time of Use (TOU) - Off-Peak		0%		4%		0%		6%
Temporary Supply	18,588	0%	8	0%	9,373	0%	6	0%
Total Residential	28,212,910	100%	52,405	100%	34,274,946	100%	51,675	100%

14. The MoE (PD) also presented a comparison of Power Sector Cost & its Recovery Structure, whereby it was explained that around 73% cost is fixed, whereas only 7% of such costs is recovered as part of fixed charges, as detailed below;

Mohd - 7

Power Sector Cost Structure

Recovery from Consumers

15. The MoE (PD) also presented a snapshot of subsidy/ cross subsidy being provided to various consumer categories as under;

	Consumers		Units		CoS		GoP		Sub/CS		Subsidy
	No.	%	MkWh	%	Rs./kWh	Rs./kWh	Rs./kWh	%	Rs./kWh	%	
Up to 50 Units - Life Line	849,869	2%	413	0.4%	36.13	3.95	(32.18)	(89%)			13
51-100 units - Life Line	533,271	1%	393	0.4%	36.13	7.74	(28.39)	(79%)			11
01-100 Units (Protected)	20,170,487	52%	18,905	19%	36.13	11.05	(25.08)	(69%)			474
101-200 Units (Protected)											
01-100 Units	2,394,808	6%	9,482	9%	36.13	26.86	(9.26)	(26%)			88
101-200 Units											
Non-Prot. 201-300	5,632,066	15%	9,083	9%	36.13	33.10	(3.02)	(8%)			27
Non-Prot. > 300 & ToU	4,694,365	12%	13,399	13%	35.29	42.25	6.96	20%			(93)
Domestic	34,274,866	89%	51,675	51%	35.91	25.83	(10.07)				521
Commercial	3,523,456	9%	7,929	8%	34.25	45.56	11.31	33%			(90)
General Services	228,309	1%	3,486	3%	33.08	43.19	10.11	31%			(35)

Industry	1,000	1,250	29.34	1,000	1,250	25.29	(4.04)

17. Various commentators submitted their comments, during the hearing. Written comments were also received from Mr. Rehan Javed, an industrial user from Karachi and Brig. (R) Iftikhar Opel, representing FPCCI. A summary of the relevant comments is as under;

- ✓ **Mr. Rehan Javed** appreciated the Federal Government and the MoE (PD) for initiating tariff rationalization in line with earlier commitments, as this reduction in industrial tariffs was necessary and overdue. Persistently high electricity prices had rendered grid power uncompetitive for industry, leading to suppressed demand, migration to alternate energy sources, and erosion of export competitiveness. Any step towards lowering the industrial tariff is therefore acknowledged as positive.
- ✓ He however submitted that the proposed industrial tariffs against NEPRA-determined cost of service shows that tariff rationalization remains incomplete, particularly for B3 (11-33 kV) industrial consumers. B3 consumers continue to pay above cost of service, including during off-peak hours, where system marginal costs are lower and additional consumption should be encouraged. It was further submitted that over-recovery during off-peak periods directly contradicts the logic of time-of-use pricing and weakens demand-shifting incentives.
- ✓ It was also stated that PHL surcharge, which is applied uniformly across all industrial slabs, is not an electricity-related surcharge. It does not represent the cost of generation, transmission, distribution, voltage level, or time-of-use. In substance, it is a legacy financial recovery mechanism and therefore operates as a cross-subsidy embedded within electricity bills. As long as PHL remains imposed on industrial consumption, industrial tariffs cannot reach cost-reflective or internationally competitive levels, regardless of adjustments made to energy or fixed charges.

Handwritten signature

Removal of the PHL surcharge from all industrial slabs would immediately reduce the effective industrial electricity tariff to approx. 9 US cents per kWh, which represents a minimum threshold for export competitiveness and sustainable industrial growth.

- ✓ Mr. Rehan Javed reiterated his submissions during the hearing and also submitted that even after the proposed rationalization, B3 industrial consumers continue to bear an estimated cross-subsidy of approximately Rs.3 per unit, which is neither technically justified nor economically sustainable. Industry, particularly at B3 voltage levels, should not be used as a residual category to subsidize other consumer segments. This anomaly can be corrected immediately without fiscal stress or consumer shock. A marginal upward adjustment of approximately Rs.0.15 per unit in the B2 tariff would be sufficient to neutralize the cross-subsidy currently embedded in B3. Such an adjustment would not only restore tariff neutrality but would also improve DISCOs performance, as more consumers would be incentivized to migrate to higher voltage connections, thereby reducing technical losses & improving load utilization across the system.
- ✓ FPCCI also made similar comments and further submitted measures must be taken to enable performance-linked compensation mechanisms and safeguard grid reliability. It was also stated that the Authority may consider mandating compliance with IEEE-1547:2018 (or an equivalent internationally recognized standard) for inverters and other Distributed Energy Resources (DERs) interfacing with the grid. Such compliance should include enforceable requirements for advanced smart-inverter functionalities, including but not limited to Volt-VAR, Volt-Watt, dynamic frequency response, and fault ride-through capabilities.
- ✓ It also submitted that these measures are essential to enhance grid stability, interoperability, and real-time controllability in an environment of increasing DER penetration. It is recognized that implementation would require a phased withdrawal of non-compliant equipment currently available in the market, along with strict enforcement to prevent further import and deployment of substandard technologies. In this regard, procurement and compliance frameworks under PPRA regulations may also be strengthened to support effective implementation and market discipline.
- ✓ It was further submitted that the existing tariff framework does not explicitly recognize, value, or remunerate ancillary services such as voltage support, frequency regulation, and system balancing, provided by centralized generators as well as Distributed Energy Generators (DEGs), including solar PV. FPCCI recommends the establishment of a dedicated ancillary services market with technology-specific and time-differentiated compensation (peak, off-peak, and seasonal), based on verifiable service delivery. Supported by standardized technical eligibility criteria, such a market would facilitate DEG participation, improve system reliability, and incentivize

J. Malik

- private investment in grid-support services that are increasingly critical for secure system operations.
- ✓ It was also highlighted that electricity consumers are presently subject to a layered fiscal burden over and above income taxation, including electricity duty, general sales tax (17–18%), financing cost surcharge, fuel price adjustment, PHL surcharge, extra tax, further tax, and sales tax, all recovered through electricity bills. The cumulative impact of these levies significantly escalates the delivered cost of electricity, particularly for industrial and commercial consumers. Given that electricity is a core input for productive activity, export competitiveness, and demand growth, there is a strong economic case for rationalizing and reducing taxation on electricity to support industrial growth and improve system utilization.
 - ✓ Mr. Amir Sheikh and Mr. Asim Riaz appreciated the initiative by the MoE (PD). Mr. Asim Riaz submitted that Industrial tariff should be further reduced in order to make them regionally competitive.
 - ✓ Mr. Absar Ali representing APTMA submitted that for B3 industrial consumers, cross subsidy still exists to the extent of other industrial consumer categories. Mr. Hassan bin Younas, a commentator submitted that while applying fixed charges, correct sanctioned loads needs to be considered, as the currently recorded sanctioned loads by DISCOs are not appropriate.
 - ✓ The MoE (PD) while responding to the concerns of stakeholders submitted that the instant Motion and Guidelines are based on the cost-of-service methodology, used by NEPRA in its recent wheeling/ Use of System Charges (UoSC) determinations, and the same would be updated, once NEPRA issues revised wheeling charges/ UoSC determinations, based on newly determined tariff of XWDISCOs for the CY 2026.
 - ✓ The Authority while also appreciating the initiative of the MoE (PD), was of the opinion that such initiatives including the incremental consumption package, should have been clubbed together instead of bringing before the Authority in piecemeal.
18. The Authority has carefully considered the submissions made by the Federal Government in the Motion & during hearing and comments from the stakeholders. The MoE (PD) highlighted that there is structural misalignment between the determined revenue requirement, where a substantial portion comprises of fixed costs and the predominantly volumetric recovery mechanism. Therefore, it is necessary to rationalize the tariff structure. The present volumetric tariff framework, coupled with the significant expansion of off-grid solar, has placed a disproportionate recovery burden on other consumers, particularly, leading to increased cross-subsidization and migration to alternative energy solutions. Accordingly, a recalibration of fixed and variable charges has been proposed to ensure equitable cost recovery and long-term financial sustainability of the grid, whereby

9/10/2024

- fixed charges for all domestic consumers, except lifeline consumers, have been levied, to better reflect the underlying cost structure and fixed cost recovery of the consolidated revenue requirement.
19. The Authority noted that present consumer end tariff design is volumetric in nature, whereby over 93% of the total system cost is being recovered on units consumed basis (Rs/kWh) and remaining 7% as fixed charge i.e. Rs/kW/month. On the other hand, capacity charges of generation companies, NTDC/ HVDC costs etc., are fixed costs, which are required to be paid monthly, irrespective of electricity consumption by the consumers. These fixed costs, accounts for significant portion of total revenue requirement of Distribution companies. Thus, there is a mismatch between incurring of cost (fixed in nature) and its recovery mechanism (consumption based). The NE Plan also provides that fixed charges shall be progressively incorporated in the tariffs of all consumer segments, which shall account for at least 20% of the fixed cost. With rapid penetration of rooftop solar and other renewable energy sources, grid-based electricity demand is declining. This shift has necessitated to gradually move away from volumetric nature tariff towards a more fixed cost-oriented tariff structure. Accordingly, fixed charges have been levied / revised on domestic consumers, other than lifeline consumers, ranging from Rs.200/kW/ month to Rs.675/kW/month. Here it is also pertinent to mention that for domestic consumers, above 300 units & ToU consumers, the increase in fixed charges has been off-set by corresponding reduction in their variable charge. The amount so recovered through fixed charges, has been utilized to reduce the existing cross subsidy of industrial consumers, and resultantly, their variable rate has been reduced ranging from Rs.1/kWh to Rs.4.58/kWh for different categories.
20. The Authority further noted that as per Section 31 of the NEPRA Act, the Authority shall, in the determination, modification or revision of rates, charges and terms and conditions for the provision of electric power services, be guided by the national electricity policy, the national electricity plan and such guidelines as may be issued by the Federal Government in order to give effect to the national electricity policy and national electricity plan. Further, as mentioned by the MoE (PD) in the Motion and during hearing, the proposed revision of the GoP applicable uniform tariff is within the determined requirement of XWDISCOs and already budgeted Tariff differential subsidy (TDS) of Rs.249 billion.
21. In light of the above discussion, relevant provisions of the Act & Policy and the fact that the revised tariff proposed by the Federal Government is within the determined consolidated revenue requirement of all the XWDISCOs and already budgeted TDS of Rs.249 billion for the CY 2026, the Authority has no objection in approving the Motion.
22. Accordingly, Annex-II & III of all XWDISCOs, issued vide decision dated 07.01.2026, and Annex-A, A-I, B, B-I and C issued vide decision dated 12.01.2026 have been revised, after

9/51

incorporating therein the category wise fixed and variable charges, as proposed by the MoE in the Motion. The revised Annex-II & III of all XWDISCOs, and Annex-A, A-I, B, B-I and C are attached herewith.

23. The instant decision is intimated to the Federal Government for notification in terms of Section 31(7) of the Act.

	c) Pre-Paid Residential Supply Tariff	-	575	38.03	42.12

As per Authority's decision only protected residential consumers will be given the benefit of one previous slab.

As per Authority's decision, residential life line consumer will not be given any slab benefit.

Under tariff A-1, there shall be minimum monthly customer charge at the following rates even if no energy is consumed. For consumers where monthly fixed charges are applicable, no minimum charges shall be applicable on such consumers, even if no energy consumed.

a) Single Phase Connections

Rs. 75/- per consumer per month

b) Three Phase Connections

Rs. 150/- per consumer per month

The fixed charges for Non-FYU domestic consumers shall be applicable based on the sanctioned load.

The fixed charges for FYU domestic consumers shall be applicable based on 80% of the sanctioned load or MDI, whichever is higher.

For the month of February 2024, for FYU domestic consumers, where MDI is not available, fixed charges shall be applicable based on 50% of the sanctioned load.

ix)	401 - 600 Watts	-	500	33.12	34.95
x)	601 - 600 Watts	-	675	22.74	40.23
xi)	601 - 700 Watts	-	675	33.12	41.43
xii)	Above 700 Watts	-	675	33.81	47.20
b)	For Handmade load 6 kW & above	-	-	Peak	Off-Peak
	Time Of Use	-	675	22.74	24.34
c)	Pre-Paid Residential Supply Tariff	-	675	27.24	42.12

As per Authority's decision only protected residential consumers will be given the benefit of one previous rich.
As per Authority's decision, residential life line consumer will not be given any rich benefit.
Under tariff A-1, there shall be minimum monthly customer charge at the following rates even if no energy is consumed. For consumers where monthly fixed charges are applicable, no minimum charges shall be applicable on such consumers, even if no energy consumed.
a) Single Phase Connections Ru. 75/- per consumer per month
b) Three Phase Connections Ru. 150/- per consumer per month
The fixed charges for Non-Tariff domestic consumers shall be applicable based on the sanctioned load.
The fixed charges for Tariff domestic consumers shall be applicable based on 50% of the sanctioned load or MDL, whichever is higher.

A-2 GENERAL SUPPLY TARIFF - COMMERCIAL

Sr. No.	TARIFF CATEGORY / PARTICULARS	FIXED CHARGES	FIXED CHARGES	UNIFORM DETERMINED TARIFF WITHOUT FYA VARIABLE CHARGES	GOP APPLICABLE VARIABLE CHARGES
		Ru. / Cons. / M	Ru/kW/M	Ru/kWh	Ru/kWh

Note 1: The fixed charges for Non-ToU domestic consumers shall be applicable based on the sanctioned load.

Note 2: The fixed charges for ToU domestic consumers shall be applicable based on 50% of the sanctioned load or MDI, whichever is higher.

Note 3: The uniform GoP applicable rate proposed for prepaid metering category mentioned in Annex-A-1 would also be applicable to K-Electric prepaid consumers.

For the month of February 2026, for TOU domestic consumers, where MDI is not available, fixed charges shall be applicable based on 50% of the sanctioned load.

	a) Pre-Paid Residential Supply Tariff	-	675	-	21.06	-	(0.37)	-	20.69

As per Authority's decision only protected accidental consumers will be given the benefit of one previous slab.

As per Authority's decision, residential life line consumer will not be given any slab benefit.

Under tariff A-1, there shall be minimum monthly customer charge at the following rates even if no energy is consumed. For consumers where monthly fixed charges are applicable, no minimum charges shall be applicable on such consumers, even if no energy consumed.

i) Single Phase Connection

Rs. 75/- per consumer per month

ii) Three Phase Connection

Rs. 100/- per consumer per month

The fixed charges for Non-ToU domestic consumers shall be applicable based on the sanctioned load.

The fixed charges for ToU domestic consumers shall be applicable based on 80% of the sanctioned load or MDI, whichever is higher.

	Time Of Use	-	675	04.69		(0.04)		04.73	
	c) Pre-Paid Residential Supply Tariff	-	675	04.67		(0.04)		04.71	

As per Authority's decision only protected residential consumers will be given the benefit of one previous slab.

As per Authority's decision, residential life line consumers will not be given any slab benefit.

Under tariff A-1, there shall be minimum monthly customer charge at the following rates even if no energy is consumed. For consumers where monthly fixed charges are applicable, no minimum charges shall be applicable on such consumers, even if no energy consumed.

a) Single Phase Connection Rs. 75/- per consumer per month

b) Three Phase Connection Rs. 105/- per consumer per month

The fixed charges for Free-Toll domestic consumers shall be applicable based on the sanctioned load.

The fixed charges for T&U domestic consumers shall be applicable based on 80% of the sanctioned load or MDI, whichever is higher.

As per Authority's decision only protected residential consumers will be given the benefit of one previous slab.

As per Authority's decision, residential life line consumer will not be given any slab benefit.

Under tariff A-1, there shall be minimum monthly customer charge at the following rate even if no energy is consumed. For consumers where monthly fixed charges are applicable, no minimum charges shall be applicable on such consumers, even if no energy consumed.

a) Single Phase Connection

Rs. 75/- per consumer per month

b) Three Phase Connection

Rs. 180/- per consumer per month

The fixed charges for Res-Toll domestic consumers shall be applicable based on the sanctioned load.

The fixed charges for Toll domestic consumers shall be applicable based on 50% of the sanctioned load or MDI, whichever is higher.

A-2 GENERAL SUPPLY TARIFF - COMMERCIAL

Sr. No.	TARIFF CATEGORY / PARTICULARS	FIXED CHARGES	FIXED CHARGES	VARIABLE CHARGES		PTA 2025	Total Variable Charges	
		Rs / Conn / M	Rs / kW / M	Rs/kWh		Rs/kWh	Rs/kWh	
		A	B	C		D	E=CD	
a) For Sanctioned load less than 5 kW	b) For Sanctioned load 5 kW & above	1,000	1,250	22.67		1.16	23.84

	Pre-Paid Residential Supply Tariff	-	675	24.79		0.84		25.63	

As per Authority's decision only protected residential consumers will be given the benefit of one previous slab.

As per Authority's decision, residential life line consumer will not be given any slab benefit.

Under tariff A-1, there shall be minimum monthly customer charge at the following rates even if no energy is consumed. For consumers where monthly fixed charges are applicable, no minimum charges shall be applicable on such consumers, even if no energy consumed.

a) Single Phase Connections

Rs. 75/- per consumer per month

b) Three Phase Connections

Rs. 150/- per consumer per month

The fixed charges for Non-ToU domestic consumers shall be applicable based on the sanctioned load.

The fixed charges for ToU domestic consumers shall be applicable based on 50% of the sanctioned load or MSU, whichever is higher.

SCHEDULE OF ELECTRICITY TARIFFS
FOR QUETTA ELECTRIC SUPPLY COMPANY (QESCO)

A-1 GENERAL SUPPLY TARIFF - RESIDENTIAL

Sr. No.	TARIFF CATEGORY / PARTICULARS	FIXED CHARGES	FIXED CHARGES	VARIABLE CHARGES		FYA 2025		Total Variable Charges	
		Ru / Cuse / M	Ru / kW / M	Ru/kWh		Ru/kWh		Ru/kWh	
		A	B	C		D		E=C+D	
a)	For Sanctioned load less than 5 kW	-	-	44.61		1.35		45.97	
i)	Up to 50 Units - 110V Line	-	-	44.61		1.35		45.97	
ii)	51 - 100 Units - 110V Line	-	-	47.99		1.35		49.34	
iii)	101 - 200 Units	-	300	43.36		1.35		44.71	
iv)	201 - 300 Units	-	300	47.26		1.35		48.61	
v)	301 - 400 Units	-	300	53.38		1.35		54.73	
vi)	401 - 500 Units	-	300	52.74		1.35		54.09	
vii)	501 - 600 Units	-	300	52.95		1.35		54.30	
viii)	601 - 700 Units	-	300	52.67		1.35		54.02	
ix)	701 - 800 Units	-	300	52.95		1.35		54.30	
x)	Above 800 Units	-	300	52.36		1.35		53.71	
b)	For Sanctioned load 5 kW & above	-	-	Peak		Off-Peak		Peak	
	Time Of Use	-	675	54.82		46.17		55.95	
c)	Pre-Paid Residential Supply Tariff	-	675	57.28		1.35		58.74	

As per Authority's decision only protected residential consumers will be given the benefit of one previous slab.

As per Authority's decision, residential life line consumer will not be given any slab benefit.

Under tariff A-1, there shall be minimum monthly customer charge at the following rates even if no energy is consumed. For consumers where monthly fixed charges are applicable, no minimum charges shall be applicable on such consumers, even if no energy consumed.

a) Single Phase Connection:

Ru. 75/- per consumer per month

b) Three Phase Connection:

Ru. 150/- per consumer per month

The fixed charges for two-two domestic consumers shall be applicable based on the sanctioned load.

The fixed charges for two domestic consumers shall be applicable based on 50% of the sanctioned load or MDI, whichever is higher.

A-2 GENERAL SUPPLY TARIFF - COMMERCIAL

Sr. No.	TARIFF CATEGORY / PARTICULARS	FIXED CHARGES	FIXED CHARGES	VARIABLE CHARGES		FYA 2025		Total Variable Charges	
		Ru / Cuse / M	Ru / kW / M	Ru/kWh		Ru/kWh		Ru/kWh

	xi) 601 - 700 Units	-	675	31.78	2.04	33.82
	xii) Above 700 Units	-	675	31.98	2.04	34.02
	b) For Sanctioned load 5 kW & above	-	-	-	-	-
Time Of Use		-	675	33.28	2.04	35.32
Pre-Paid Residential Supply Tariff		-	675	35.17	2.04	37.21

As per Authority's decision only protected residential consumers will be given the benefit of one previous slab.

As per Authority's decision, residential life line consumer will not be given any slab benefit.

Under tariff A-1, there shall be minimum monthly customer charge at the following rates even if no energy is consumed. For consumers where monthly fixed charges are applicable, no minimum charge shall be applicable on such consumers, even if no energy consumed.

a) Single Phase Connection:

Rs. 75/- per consumer per month.

b) Three Phase Connection:

Rs. 150/- per consumer per month.

The fixed charges for Non-T&U domestic consumers shall be applicable based on the sanctioned load.

The fixed charges for T&U domestic consumers shall be applicable based on 50% of the sanctioned load or MDL, whichever is higher.

A-2 GENERAL SUPPLY TARIFF - COMMERCIAL & INDUSTRIAL

Time Of Use		-	675	30.18	21.72	(0.00)	(0.00)	30.18	21.72
c) Pre-Paid Residential Supply Tariff		-	675	31.49	31.49	(0.00)	(0.00)	31.49	31.49

As per Authority's decision only protected residential consumers will be given the benefit of one previous slab.

As per Authority's decision, residential life line consumer will not be given any slab benefit.

Under tariff A-1, there shall be minimum monthly customer charge at the following rates even if no energy is consumed. For consumers where monthly fixed charges are applicable, no minimum charges shall be applicable on such consumers, even if no energy consumed.

a) Single Phase Connection: Rs. 75/- per consumer per month

b) Three Phase Connection: Rs. 150/- per consumer per month

The fixed charges for Non-TTU domestic consumers shall be applicable based on the sanctioned load.

The fixed charges for TTU domestic consumers shall be applicable based on 50% of the sanctioned load or MDI, whichever is higher.

	Time Of Use	-	675	53.52	44.35	(0.97)	(0.97)	53.26	44.79
	c) Pre-Paid Residential Supply Tariff	-	675		52.76		(0.97)		53.70

As per Authority's decision only protected residential consumers will be given the benefit of one previous slab.

As per Authority's decision, residential life line consumer will not be given any slab benefit.

Under tariff A-1, there shall be minimum monthly customer charge at the following rates even if no energy is consumed. For consumers where monthly fixed charges are applicable, no minimum charges shall be applicable on such consumers, even if no energy consumed.

a) Single Phase Connection

Rs. 75/- per consumer per month

b) Three Phase Connection

Rs. 100/- per consumer per month

The fixed charges for Pre-TDU domestic consumers shall be applicable based on the sanctioned load.

The fixed charges for TDU domestic consumers shall be applicable based on 50% of the sanctioned load or MDI, whichever is higher.

A-2 GENERAL SUPPLY TARIFF - COMMERCIAL

Sr. No.	TARIFF CATEGORY / PARTICULARS	FIXED CHARGES	FIXED CHARGES	VARIABLE CHARGES		PTA 2026		Total Variable Charges	
		Rs / Conn / M	Rs / kW / M	Rs/kWh		Rs/kWh		Rs/kWh

	Time Of Use			Peak	43.64	Peak	(0.97)	Peak	42.87
				Off-Peak	32.84	Off-Peak	(0.97)	Off-Peak	32.47
Industrial Up to 2000 Watts	B1 (M) Up to 25 kW	1,000			43.64		(0.97)		42.87
	B2(b) Exceeding 25-500 kW (at 400 Volts)	-	1,350		43.99		(0.97)		42.90
	B3 For All Loads up to 5000 kW (at 11.5 kV)	-	1,200		43.14		(0.97)		42.87
	B4 For All Loads (at 66, 132 kV & above)	-	1,100		43.09		(0.97)		42.17
	Pre-Paid Industrial Supply Tariff	-	1,200		36.06		(0.97)		37.85

Where Fixed Charges are applicable Rs./kW/Month, the charges shall be billed based on 20% of sanctioned Load or Actual MDI for the month which ever is higher.

C SINGLE POINT SUPPLY

Sr. No.	TARIFF CATEGORY / PARTICULARS	FIXED CHARGES	FIXED CHARGES	VARIABLE CHARGES		PTA 2026		Total Variable Charges	
		Rs / Conn / M	Rs / kW / M	Rs/kWh		Rs/kWh		Rs/kWh	
		A	B	C		D		E=C+D	
Single Point Up to 2000 Watts	C-1 For supply at 400/230 Volts	1,000			51.50		(0.97)		51.24
	a) Sanctioned load less than 5 kW	-	1,300		37.79		(0.97)		37.79
	b) For supply at 11.5 kV up to and including 5000 kW	-	1,300		46.30		(0.97)		46.44
	c) For supply at 66 kV & above and sanctioned load above 5000 kW	-	1,300		46.38		(0.97)		46.21
Single Point Up to 2000 Watts	Time Of Use			Peak	49.29	Peak	(0.97)	Peak	49.22
				Off-Peak	42.94	Off-Peak	(0.97)	Off-Peak	42.97
	C-1(a) For supply at 400/230 Volts 5 kW & up to 500 kW	-	1,300		52.17		(0.97)		52.10
	C-1(b) For supply at 11.5 kV up to and including 5000 kW	-	1,300		52.51		(0.97)		52.57
	C-1(c) For supply at 66 kV & above and sanctioned load above 5000 kW	-	1,300		52.51		(0.97)		52.57
	Pre-Paid Single Point Supply Tariff	-	1,300		46.62		(0.97)		46.66

Where Fixed Charges are applicable Rs./kW/Month, the charges shall be billed based on 20% of sanctioned Load or Actual MDI for the month which ever is higher.

41/51

**SCHEDULE OF ELECTRICITY TARIFFS
FOR HYDERABAD ELECTRIC SUPPLY COMPANY (HESCO)**

D - AGRICULTURE TARIFF

Sr. No.	TARIFF CATEGORY / PARTICULARS	FIXED CHARGES	FIXED CHARGES	VARIABLE CHARGES		PTA 2025		Total Variable Charges	
		Rs / Conn / M	Rs / kW / M	Rs / kWh		Rs / kWh		Rs / kWh	
		A	B	C		D		E=CD	
D-1(a)	SCARP less than 5 kW	-	-	42.90		(9.97)		42.94	
D-2 (a)	Agricultural Tube Wells	-	400	52.81		50.87		52.82	
				Peak	Off-Peak	Peak	Off-Peak	Peak	Off-Peak
D-1(b)	SCARP 5 kW & above	-	400	39.36	27.19	(9.97)	(9.97)	39.39	27.12
D-2 (b)	Agricultural 5 kW & above	-	400	53.53	46.17	(9.97)	(9.97)	53.46	45.10
	Fee-Paid for Agri & Seery	-	400	60.34		(9.97)		60.16	

Under this tariff, there shall be minimum monthly charges Rs.3000/- per consumer per month, even if no energy is consumed.
Note: The consumer having sanctioned load less than 5 kW can opt for TOU metering.

E - TEMPORARY SUPPLY TARIFFS

Sr. No.	TARIFF CATEGORY / PARTICULARS	FIXED CHARGES	FIXED CHARGES	VARIABLE CHARGES		PTA 2025		Total Variable Charges	
		Rs / Conn / M	Rs / kW / M	Rs / kWh		Rs / kWh		Rs / kWh

		-	675	38.44	37.88	1.88	1.88	40.32	39.76
	c) Pre-Paid Residential Supply Tariff	-	675	38.23	37.88	1.88	1.88	40.11	39.76

As per Authority's decision only protected residential consumers will be given the benefit of one previous shk.

As per Authority's decision, residential life time consumer will not be given any such benefit.

Under tariff A-1, there shall be minimum monthly customer charge of the following rates even if no energy is consumed. For consumers where monthly fixed charges are applicable, no minimum charges shall be applicable on such consumers, even if no energy consumed.

a) Single Phase Connections: Rs. 75/- per connection per month

b) Three Phase Connections: Rs. 150/- per connection per month

The fixed charges for Non-TU domestic consumers shall be applicable based on the sanctioned load.

The fixed charges for TU domestic consumers shall be applicable based on 80% of the sanctioned load or MDI, whichever is higher.

As per Authority's decision only protected residential consumers will be given the benefit of one previous slab.

As per Authority's decision, residential life line consumer will not be given any slab benefit.

Under tariff A-1, there shall be minimum monthly customer charge at the following rates even if no energy is consumed. For consumers where monthly Fixed charges are applicable, no minimum charges shall be applicable on such consumers, even if no energy consumed.

a) Single Phase Connection

Rs. 75/- per consumer per month

b) Three Phase Connection

Rs. 150/- per consumer per month

The fixed charges for Non-TTU domestic consumers shall be applicable based on the sanctioned load.

The fixed charges for TTU domestic consumers shall be applicable based on 50% of the sanctioned load or MDL, whichever is higher.
